## ABOUT ME

I am a 3rd-year Computer Engineering student at Karabük University, specializing in web and API development. I have a strong foundation in MSSQL, JavaScript, C#, and .NET technologies, and I am continually improving my skills to build efficient and scalable web applications.

EDUCATION

KARABUK UNIVERSITY

Computer Engineering

2022 - Present

SKILLS

- C#
- .NET
- SQL
- JAVASCRIPT
- HTML
- CSS
- WEB API

WORK EXPERIENCE

B2 Advertising Agency
Supervisor

September 2019 to August 2021
ISTANBUL

The American Robert College
Junior .NET Developer
I worked as a .NET Junior Developer in the project developed to make the registration processes of the Summer Camp at Robert College easier and more manageable. We developed a web application to modernize the existing registration processes. The project was built on the .NET platform and developed using ASP.NET MVC. Microsoft SQL Server was preferred for database management.

December 2023 to March 2024
ISTANBUL

ACD | Veri Mühendisliği
Intern .NET Developer
Developed a web application for employee task management, including features for task assignment, approval, and email notifications. Gained hands-on experience with stored procedures, data visualization, and optimizing database operations. Contributed to improving workflow efficiency through automation and effective task tracking.

July 2024 to August 2024
ESKISEHIR

Medyasoft Bilişim Grubu
Intern .NET Developer
During my internship, I worked on RabbitMQ and Redis-based messaging and caching systems, contributed to the development and integration of the email delivery infrastructure, and actively supported various software development tasks within the company's projects.

August 2025 to September2025
ISTANBUL

Medyasoft IT Group
Junior .NET Developer

September 2025 -
ISTANBUL
